Docket Number (Optional)

42P6963R

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,297,974, granted October 2, 2001 and for which a reissue patent is sought on the invention entitled \_\_\_\_\_Method and Apparatus for Reducing Stress Across Capacitors Used in Integratedthe specification of which Circuits☐ is attached hereto.☒ was filed on October 10, 2003 as reissue application number 10/678,055and was amended on \_\_\_\_\_  
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Claim 1 mistakenly omitted the word "not" from the limitation concerning the voltage level between the first and middle nodes. This voltage level does not exceed the breakdown voltage as now claimed.
